

## MOULD RELEASE – PAINTABLE CO POLYMER

•High heat stability with no residual film that will accept paint without causing finish imperfections

Part No.	Size
67820	400 g aerosol
62820	20 L pail

67820 62820

## MOULD RELEASE – SILICONE BASED

•A heavy-duty formulation engineered for industry demanding more cycles •Less sticking •Best for high-pressure applications •Lubricates •Non-staining •Faster moulding •Heat stable, non-toxic

Part No.	Size
61820	400 g aerosol
65820	20 L pail

## MOULD RELEASE – ECONOMY

•Convenient and economical for efficient machinery operation  
•Medium-duty all temperature release  
•Fast drying on hot and cold moulds  
•Operating temperatures 1.6°C to 316°C

Part No.	Size
61814	410 mL aerosol
69820	20 L pail

## MOULD RELEASE – FOOD GRADE

•A multipurpose, heat stable silicone release formulation suitable for use in the food packaging industry •Dimethyl polysiloxane surface treatment, release material lubricant and processing aid in food processing and packaging applications •Inert •Harmless to metals and plastics •Excellent for thin wall container manufacturing •FDA and USDA approved for food machinery •Operating temperatures -1°C to 316°C

Part No.	Size
68814	410 mL aerosol
68820	20 L pail

68814 68820

## MOULD CLEANER & DEGREASER

•Formulated for in place cleaning of all metal moulds during use or for superior clean up prior to storage  
•Removes all release agent residues, grease, oil and wax buildup on moulds  
•Non-flammable

Part No.	Size
67920	520 g aerosol
65920	20 L pail

## MOULD CLEANER – FAST DRYING NON CHLORINATED

•Removes all release agent residues, grease, oil and wax on moulds  
•Fast Drying  
•Low odour

Part No.	Size
66820	400 g aerosol
66520	20 L pail

66820 66520

## MOULD SAVER

•Protects all moulds and precision tools during storage and transportation •The fan spray allows for uniform and complete coverage •During short or long emissions Mould Saver will protect all bare metal surfaces and is easy to remove with no residue using mould cleaning solution  
•Displaces moisture and eliminates corrosion  
•350 g aerosol

Part No. 61414.

## RESIN REMOVER

•Unique formulation proven to work where others fail •Eliminates or reduces the need for repeated high speed abrasive cleaning and polishing •Ideal for small journals and pin areas on moulds •Cleans burnt plastic and resin residue buildup adhering to mould surfaces

Part No.	Size
67414	350 g aerosol
67420	20 L pail

# LOCTITE® – Mold Release Agent

LCT/2477

## Frekote EXITT-I MOLD RELEASE AGENT

•Sacrificial mold release agent offers superb release properties, choice of finish, and excellent part detail to meet your specific molding requirements  
•All of these solvent-based products can be applied to steel, aluminum, epoxy, ceramic and flexible mold surfaces  
•55 gal drum

Part No. 83517.

# PRIMROSE™ – Power Wash Cleaning Products

PRI/1786/1787

## PRESSURE WASHER SOAP

•A liquid pressure washer soap for cleaning and degreasing a variety of different surfaces  
•It is water soluble, non-flammable, odourless, and leaves no films

Part No.	Size
PW-4	4 L jug
PW-20	20 L pail
PW-205	205 L drum

PW-4

## POWDERED PRESSURE WASHER SOAP

•Dissolves easily in water •It is preferably used with pressure washer equipment but can also be used in manual wash applications •It is safe for use on painted car surfaces and in car wash equipment •Biodegradable •Environmentally friendly •20 kg pail

Part No. PPW-20.

## FOAMING PRESSURE WASHER SOAP

•A light foaming pressure wash soap with the power to clean deep without the need of mechanical help  
•Concentrated formula that is best used in pressure washers •Safe to use on all painted surfaces, concrete, metal parts, plastic, and wood

Part No.	Size
FPW-20	20 L pail
FPW-205	205 L drum

FPW-20

## HEAVY-DUTY PRESSURE WASHER SOAP

•Rapidly removes heavily soiled grime, grease, and dirt from vehicles and equipment •It is a concentrated product that is biodegradable  
•Environmentally friendly

Part No.	Size
HDPW-20	20 L pail
HDPW-205	205 L drum

## BUG ERASER

•A concentrated formula that works hard to remove insect and insect stains from surfaces •It is safe and will not harm paint, chrome, or rubber

Part No.	Size
BUG-1	1 L bottle
BUG-4	4 L jug
BUG-20	20 L pail

BUG-1

BUG-4

Sealants / Leak Detection / Adhesives / Epoxies

Corrosion Protection / Coatings / Paint / Solvents

Paper/Wiping Products / Garbage Bags / Matting

Cleaning Equipment / Cleaners / Degreasers

Ice Melt / Weed Control / Insecticides / Pest Control
