

LED FIREBOLT® BEACON – CLASS III

•Produces a superior warning signal to promote work zone safety •Allows for a minimal Amp draw of less than 0.5A while meeting Class 3 standards •Designed to meet the demands of a variety of work zones including snow plows, forklifts, utility trucks and construction vehicles; the Firebolt Class 3 LED is made of a shatterproof, polycarbonate dome and base that includes an O-ring to help protect against moisture •12-24 VDC •SAE J845, Class 3 •Permanent mount •No. of Diodes: 3 •3.8" height •Amber
Part No. 220350-02.

LED MODEL 851/651 BEACON – CLASS II

•Feature an "open-style" aluminum base designed to accommodate a diverse range of applications from utility vehicles and industrial trucks, to construction vehicles •Heavy-duty polycarbonate Fresnel dome lens optically directs all light at the most efficient angles to assure superior LED lighting performance under all conditions •Corrosion resistant anodized aluminum base and rugged polycarbonate dome are engineered to ensure extended service life and dependable performance despite the most punishing working condition •Provide a superior level of lighting warning performance requiring just a single amp for efficient operation •Lamp Connector: Hardwired, stripped end •12-24 VDC •SAE J845, Class 2

Part No.	Mount	Colour	Height
420450-02	Permanent	Amber	7.5"
420223-02			5.4"

LED PULSATOR® BEACON – CLASS II

•Features an innovative LED emitter that produces a superior warning signal to promote work zone safety •The Pulsator LED is ideal for a variety of applications including DOT, municipal, utility and construction vehicles •Offers (14) selectable flash patterns that can be selected by the user through the Power Select feature •Delivers an impressive warning signal while drawing minimal pull on vehicles electrical systems •1" pipe mount polycarbonate base and dome •12-24 VDC •SAE J845, Class 2 •Permanent mount
